Guiding spirits somehow appear when you're least expecting them such as following ::  
This resonates with my 1967 "lessons learned" while enroute to the off-shore Vietnam War ::

My takeaway as a #USNavy Veteran is to honor all humanity's inner voices thanks to a spirit who shared WIZdom from the Korean War trenches serving wounded Marines ...  
Bravo Zulu USMC Hospital Corpsmen ::

Leadership traits result in empowering and inspiring others when the situation is seasoned with "attitude, aptitude and abilities" plus a dash of UNODIR (Unless Otherwise Directed) . . .

I got my \*most memorable leadership lesson\* from a Master Chief Hospital Corpsman (MCHC) while I was an Ensign in transit via a USAF MAC flight to join USS Cimarron (AO-22) at Subic Bay, PI (in April, 1967)

Over an ice-cold San Miguel beer at off-base quarters near Clarke AFB, this savvy MCHC convinced me RHIP (Rank Has Its Privileges) hampers leadership!

His advice for more effective leadership passed the O-1/KISS Test.[Keep It Simple Stupid] . . .  
1 - Always listen to your senior petty officers.  
2 - TRUST your crew to perform their assigned tasks.  
3 - Eliminate "hassles" for crew whenever possible!

My operational experience generated these guidelines:  
4 - Avoid recycling prior "lessons learned"  
5 - Be PREPARED for unexpected contingencies!  
6 - Become a Master Chief Hassle Eliminator (MCHE)

Mentorship Vision 2005:  
What are the critical common connections between sustainable environmental protection & community-based emergency preparedness efforts for coping with abnormal situations?

"Leaders don't force people to follow, they invite them on a journey." ~Charles S. Lauer
